### Vigilant Overview

VIGILANT OVERVIEW (VO) is a CINCNORAD-sponsored, CJCS/CDS-approved, system-wide Command Post Exercise (CPX) involving HQ NORAD, NORAD regions and sectors and supporting units. This exercise involves all HQ NORAD levels of command and is designed to exercise most aspects of the NORAD mission. One VO exercise is scheduled each year and the length will vary depending on the exercise scenario and objectives.

In August 1975 the first of new series of quarterly NORAD exercises, Vigilant Overview 76-1, was conducted.
